

Sort by 2021  
Unit Sales

VBA code for recorded  
macro "Sort by 5 YR CAGR":

The screenshot shows the Google Apps Script Code Editor interface. At the top, the title bar says "Code Editor". Below it, there's a "Script details" section with a back arrow icon. To the right of this section are icons for "Run" (a green play button), "Save script" (a cloud with a checkmark), and a menu icon (three dots). Below the "Script details" section, the script name "Sort by 5 YR CAGR" is displayed with a magnifying glass icon. The main area of the editor contains the following VBA code:

```
1 function main(workbook: ExcelScript.  
  Workbook) {  
2   let selectedSheet = workbook.  
    getActiveSheet();  
3   // Custom sort on range range  
    A4:R64 on selectedSheet  
4   selectedSheet.getRange("A4:R64").  
    getSort().apply([{key: 17,  
      ascending: false}], false, true);  
5 }
```

On the right side of the editor, there are icons for "Run" (a green play button), "Save script" (a cloud with a checkmark), and a menu icon (three dots).
